

## Advance Praise for *Compromised*

“As the mainstream media averts its eyes from the truth, the Government Accountability Institute once again hits the bullseye and reveals the deep corruption at the heart of the FBI and DOJ leadership under the Obama Administration. The vaunted ‘independence’ of these once respected agencies has turned into unchecked power and unaccountability. By exposing the corruption, the author presents the American people and our elected officials a road map for returning these agencies to their historically respected role in U.S. law enforcement.”

—Victoria Toensing, Former Deputy Assistant Attorney General, and Joseph diGenova, Former United States Attorney

“Following the money is an important way to get to the truth. Seamus Bruner has done that precisely in *Compromised*. Anyone concerned about our country should read this book.”

—Kenneth Sukhia, Former United States Attorney.

“Our criminal justice system has been horribly corrupted and politicized—especially by the Obama administration. This important book is a must read as it peels back the layers and exposes the truth.”

—Sidney Powell, former Assistant US Attorney, Appellate Section Chief, and Author of #1 Bestseller *Licensed to Lie: Exposing Corruption in the Department of Justice*.
